

Anil OZTURK

Civil Engineer & General Management M.Sc. Student

About Me

I am Anil Ozturk and I have 7 years of experience in infrastructure projects and 5 years of experiences in planning, progress monitoring, risk management, cost control. I have worked as a project controller in the Kingdom of Saudi Arabia and Iraq in an EPC contractor and worked as a construction supervisor in Turkey.

In my last project I worked as a planning engineer in an oil production facility in Iraq. The contract value was 80M USD and the client was Exxon. I was in charge of preparing Level-4 schedules, following up on actual progress and notify delays to the top management in advance.

I can speak advanced English and fluent Turkish (C1) and German as an intermediate level (B1).

The importance of soft skills in planning is obvious and I have developed myself in maintaining effective communication, collaboration, adaptability, problem-solving, critical thinking, time management, leadership and conflict resolution throughout the projects.

I would enjoy having the opportunity to talk with you to show you the links between my abilities and my earned knowledge with your expectations like:

- Create, monitor and analyze Project/Manufacturing schedules from the beginning of a project.
- Monitor Project, workflow, and schedules to ensure on-time delivery.
- Identifying & Tracking critical path.
- Determining various approach to bring deviated plan by innovative reports, bottlenecks identifying.
- Design Comprehensive dashboard by Power BI assist to understand current situation of Project.
- Creating warning points in case of forecasting delays like Engineering tasks or Equipment deliveries.
- Ensure that materials and equipment are pre-arranged for production, Order or shipment to project.
- Work with managers to develop potential solutions to improve production performance.
- Generate daily or weekly production reports to managers for critical decision-making purposes.
- Develop production schedules in accordance with sales forecast, plant, and employee capacity, and new business opportunities.
- Forecast Risks and finding mitigation plan by meetings and having Risk Maps.
- Integrating Soft skills and Project Management tools to have a smooth work place.

Thank you for your time and attention. I look forward to hearing you.
